Summary

Full Stack Developer with strong experience in building responsive and scalable web applications using React, JavaScript, HTML, and CSS on the front end, and Node.js with Express.js on the backend. Skilled in designing, developing, and managing RESTful APIs and building efficient, scalable backend systems. Experienced in API integration, database handling, and optimizing application performance for smooth user experiences.

Education

Cairo University, BS in Computer Science

Oct 2023 – Jul 2027
(Expected)

- **Coursework:** Data Structures, OOP, Software Engineering, Algorithms, OS

Experience

Software Engineer Intern, [Procore](#) – Cairo

Aug 2025 – Nov 2025

- Collaborated with the team on 20+ tickets as a Full-Stack Web Developer, contributing to both front-end and back-end tasks
- Gained hands-on experience with GitHub workflows, including pull requests, reviews, and merges
- Strengthened understanding of core software engineering concepts and applied them in real-world scenarios
- Enhanced coding practices with a focus on clean code principles and maintainability
- Improved soft skills through teamwork, communication, and cross-functional collaboration

Projects

CoderCollab

- Built a full-stack real-time collaborative coding platform that allows multiple users to join shared coding rooms, write and edit code simultaneously, and communicate in real time. Implemented live synchronization using WebSockets. Integrated a code execution system to compile and run code securely in multiple languages

BlogIt

- A full-featured blog application built using Python, Django, and Bootstrap, allowing users to explore, read, and manage articles with ease.

Skills

Technical: HTML, CSS, Bootstrap, Tailwindcss, JavaScript, TypeScript, React, Angular, NodeJs, ExpressJs, Redux, Django, python, Git Github, API integration, SQL, Ruby, Ruby On Rails

Soft: Teamwork, Communication, Problem Solving, Time Management, Adaptability, Jira

Languages

Arabic: Native

English: Fluent
